

INTRODUCTION OF IEP

The **Institution of Engineers Pakistan (IEP)** was established on 7th May, 1948 with the blessing of Father of the Nation Quaid-e-Azam Muhammad Ali Jinnah. It is the premier national body of engineers for the advancement of engineering profession. The Institution has its headquarters at Lahore and 9 Local Centers in all major cities of Pakistan as well in Riyadh, Saudi Arabia, Bahrain & USA. IEP has signed technical collaboration agreements with 39 National Professional Engineering organizations throughout the world. IEP is member of six International / Regional engineering bodies and it also has the honor to represent Pakistan in these forums. Major role of IEP is the advancement of engineering profession by organizing conferences, seminars, workshops, technical lectures on various topics of engineering and professional and technical issues. It also includes visits to major construction sites, factories and organizations of special interests. The Annual Convention is held every year along with national/ International conference on important Engineering topics.

INTRODUCTION OF UET LAHORE

University of Engineering and Technology (UET) Lahore, is one of the oldest engineering institutions in the country. The institution was established in 1921 as 'Mughalpura Technical College' and later it was renamed as 'Maclagan Engineering College' in 1923. The University of Engineering and Technology received its charter as a University in 1961. To meet the growing demands for the Engineering graduates and allied disciplines in the country, the university had expended various programs in the new millennium.

The **Department of Chemical Engineering** was established in 1962. The department has qualified faculty with multidisciplinary research interests. The department offers specialization in process engineering, energy engineering and biochemical engineering at the postgraduate level.

Centre for Energy Research and Development (CERAD) was established to evolve efficient, innovative and cost effective solutions of Punjab province. The Centre is carrying out research on various types of renewable energies. The centre is also a platform for technical evaluation of various energy systems compatible with our environment, besides validation of various technologies currently in vogue.

ABOUT THE CONFERENCE

The aim of this conference is to gather the researchers, scientists and engineers from academia, research institutions and industry to exchange information, experience and expertise in their respective fields. Additionally, one of the major objectives is to enhance the research relationship between the academic institutions and industry. The main theme of conference is to address the current challenges of energy faced by our country and to identify further research which needs priorities to solve the energy crisis being faced by Pakistan.

TOPICS

Technical papers presenting original research, solicited in the areas of relevant interest but not limited to following aspects of Sustainable Energy:-

- Sustainable Energy
- Renewable Energy
- Energy Management Systems
- Heat Integration and Optimization
- HVAC Systems
- Biomass Energy
